

Alutiig Ice Cream

Crisco

Sugar

Several cups berries (your choice)

1 cup boiling water

Place the Crisco in a large bowl. Pluff with a fork until the Crisco becomes light and airy. Add sugar until it reaches desired sweetness. Add the boiling water to help melt the sugar. Mix well. Add the berries to the mixture. Store the ice cream in Ziploc bags and freeze. The ice cream tastes the best when frozen. Enjoy!
